ACKNOWLEDGEMENT

We would like to express our sincere gratitude to our **Dean, Faculty of Computer Applications and IT, Dr. Tripti Dodiya** for providing us constant support and mentoring from the institute. We are very thankful to our **Project Guide Dr. Purna Tanna** ma'am for her encouragement and constant support during the research and development conducted during this project. This project would have not been successful without their guidance and mentoring. We would also like to thank Faculty of Computer Applications and IT for giving us this opportunity to explore a new field of research and provide essential resources for the same. Through this project we learnt teamwork, new technologies, programming languages, hardware and also discovered a new domain in the field of computer applications.
